Fort Hill Integrated College
Help with SIMS Parent App

If you have previously signed up for the SIMS parent app using a link from the school and see the image below, the app has signed you out. The SIMS Parent app will do this regularly for security reasons.

To access the app again, click on the 'Yes, Sign In' button. Please note, this will only work if you have previously created an account using the link sent from the school.

You can then sign in via the method you used when you first signed up. If you signed up using an email address, click on the SIMS logo button.

If you have forgotten your password, click on SIMS logo button and 'Forgot Password' to reset your password.

If you still cannot access the app, complete this form to register for a new invitation link: https://forms.gle/rQDTxEZ2kP4kwTPC7
